

# How Essex Wedding Professionals can help YOU!

Essex Wedding Professionals is a new style of Wedding Directory for Brides and Grooms planning their Weddings in Essex.

Your wedding is going to be the most important day of your life.

A day in which you have both invested a lot of time, emotion, careful planning, detail, great anticipation and excitement.

As you plan your Wedding you will be looking for people to provide you with only the very best service, those you can trust completely with your hopes and dreams for your Wedding.

Lots of Brides and Grooms are lucky enough to have close friends who will recommend someone to them. There really is nothing like hearing from a friend how great a certain florist/cake person/photographer is to give you confidence in the person who will be working with you on your special day.

Essex Wedding Professionals is really like a friend giving you recommendations for excellent Wedding Suppliers in Essex; people you can trust to recommend professionals that you are looking for to look after you on your Wedding Day.

What makes Essex Wedding Professionals so different is that each and every supplier featured within this Wedding directory will have provided testimonials which have been validated by the Essex Wedding Professionals Team. The team build an excellent relationship with the Suppliers on the Directory.

All of those Wedding experts listed on Essex Wedding Professionals have worked extensively throughout Essex and will be very familiar with the many excellent venues that you can marry in and/or celebrate your special day.

Essex Wedding Professionals are different to lots of other wedding directories which purely place an advert or listing once a year with no check as to the quality of the people who are advertising. On some directories there can be tens/hundreds of each type of supplier with no guide as to their quality.

Essex Wedding Professionals take time to ensure that only quality suppliers are listed. There are limited places available in each category – so only those suppliers who really care, can evidence their care for their brides and grooms and who provide exceptional service will be accepted onto the site.

Essex Wedding Professionals also supports their Suppliers to ensure that they can provide an excellent service on your wedding day.

Essex Wedding Professionals is the quality wedding directory introduced by Linda and Richard Palmer, who between them have 30 years of experience of looking after Brides and Grooms in Essex.

For the past 15 years, Linda, a specialist in weddings has offered a full wedding planning and co-ordination service and been involved in Venue Management.

Richard's wealth of experience ranges from event management, entertainment and toastmaster services in Essex and as far afield as Canada.

With experience of over 2,500 weddings, they have worked with some of the top professional wedding suppliers in Essex, they have met and worked with some lovely people, who truly care about their brides and grooms.
